

THEYDON BOIS TREE DONATION SCHEME 2014 - PAGE 1

In conjunction with the Landmark Tree Project, the organisations listed, together with several other groups in the village, are all getting together to see if we can plant additional street trees around the village roads.

It is not by accident that we have so many lovely trees around our village streets. In 2003, The Community Tree Strategy for Theydon Bois was created, involving the Rural Preservation Society, the Parish Council, EFDC, the City of London (as managers of Epping Forest) and many others, and a plan was created for the village to manage our existing trees and plant new ones.

Volunteers ever since have been involved on a regular basis in various action plans to implement this long standing tree strategy. A copy of which was delivered to every home in the village in 2003 and is again to be made available on the village website.

The volunteer tree wardens are now looking to refresh the action plan and to have a substantial number of additional street trees planted during 2014/2015 and in a plan going forward for the next few years.

The Rural Preservation Society have come forward to put in an initial sum of money to kick start this project that will enable an additional 40 plus trees to be planted immediately. The Parish Council, together with the Horticultural Society, The Scouts, Theydon Bois Primary School, and many other village groups, are currently looking to see how they can contribute to the project. But, what we need most of all, is for individuals to donate trees.

This is the perfect occasion to make a difference to the appearance of our village and help improve it even further. Where your donation can have a visible and positive effect. Every donation will be acknowledged with a virtual plaque on the EFDC website with links to Google maps so that the plaque can be seen whenever anyone looks at a location.

The donation can be to celebrate a birth, marriage, anniversary, birthday, death, or indeed any occasion, so please help us celebrate.

More information is on the form attached which is also available from the village website and the Parish office and the cost is £75.00 per tree, which through some seriously hard work, is the same cost as in 2003.

Whilst the forms can be returned at any time, it would be great if as many as possible, were returned by the end of July.

Thank you for your support and if you have any questions, please raise them via the Parish Office where the Parish Clerk Julie Taylor has kindly agreed to act as coordinator for the responses.
